Attachment: Briefing as stated

Re the billbeam d effect of this bine hing : it ir not divinilar to that of the NIE itself -- in text and graphier (except, of course, for the tetorial on NIEs). Concerning siguence of presentation, however it ir bunible that some of the impact of the "Prespects ... " section (the section I would regard at most injurbant) will be vehiced because the overwhelming bolk of the briefing (45 of 55 paner). maybe 2 hour of briefing/ direction) precedes it. A minimalist way of copies. with this possibility is to mention the shiff now comprising Section VIII (5, 2-59) just before the launch into Section II. I think Suchan ir a very good and crish franciscok latting within which Mr. Center can then fit the noty/belts discurren

that world follow.
